

FOR EASIER, SAFER PERIO EXAMS

American adults
with periodontitis:

47.2%

The Risk of Periodontal Disease

Nearly half of adults in the U.S. (**47.2%**) have periodontitis, according to a CDC estimate.*

A survey of dental negligence lawsuits found that a common allegation was **“failure to diagnose or treat periodontal disease in a timely fashion.”**†

STREAMLINE PERIO EXAMS

with a voice-recognition solution that lets you:

Call out perio results

without having to enter them manually

Speak naturally

no over-enunciating is required

Go hands-free

to better improve infection control

Remove interruptions

that would otherwise distract assistants

IMPROVE PATIENT CARE

by providing a fast, accurate perio exam that leaves more time for you to:

- ☒ **Discuss results with patients**
- ☒ **Consult with patients on needed treatments**
- ☒ **Provide additional patient education**

INCREASE EFFICIENCY & SAFETY

in your operatory by decreasing:

- ☒ **The number of staff needed**
- ☒ **How often you touch the keyboard or mouse**
- ☒ **Virus transmission risk**

DENTRIX
Voice Perio

from Henry Schein One is an advanced voice-recognition solution for perio exam recording that offers:

Seamless integration with your existing Dentrix software
