

DENTRIX QUICKBILL PREMIUM EMAIL BILLING NOTIFICATION FEATURE

Discover the convenience of email statements

QuickBill Email helps you:

- Reduce the cost and effort of sending patient billing statements
- Notify patients electronically of a balance due
- Collect payments from patients online
- Post payments made online to the ledger with a click

Get Payments Faster

"Now we can send electronic dental billing statements and get payments from patients quickly, inexpensively, and instantly — we've received credit card payments within minutes of sending an email. Our patients love the flexibility of the 24/7 availability and the option to pay anytime from anywhere."

R. JOHN W. ADAMS DDS, PA
Salina, Kansas

PROCESS BILLING STATEMENTS FASTER

Having your in-house staff print, fold, stuff, seal, stamp and mail paper billing statements to patients requires intensive time, effort and expense. This labor-intensive process can be financially unhealthy, particularly for businesses that operate on small profit margins.

Dentrrix QuickBill Premium's email billing notifications feature from Henry Schein One (available on Dentrrix G7.6 and above) offers an electronic billing solution that's seamlessly built into the native Dentrrix workflow. By sending statement notifications sooner and more frequently, your office can be paid faster and collect balances, large and small, that you've previously had to write off.

BENEFITS

Streamlines the billing process so your office can get more done with less effort, saving you between \$4 and \$6 per statement versus mailing statements in-house.

Helps you get paid faster when patients take advantage of convenient ways to pay, accelerating cash flow by eliminating extra days and weeks of payment collection.

Lets you decide the most effective method — statements sent via email, mail or both — on a patient-by-patient basis.

Speeds up the process of paying a bill by allowing patients to view their statements without having to log in and eliminating the need to remember a username and password.

Helps you collect payments online effortlessly, even on nights and weekends.

KEY FEATURES

CREATE INDIVIDUAL CUSTOM STATEMENTS

QuickBill Premium's email billing notification gives your team more efficiency without having to give up the ability to add custom messages.

SEE THE SUBMISSION STATUS

Once statements are sent, the submission history report shows a status of the statement notifications being sent, opened, viewed, paid and posted in the Ledger.

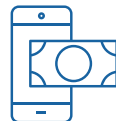

VIEW EMAIL STATEMENTS

Emailed statements can be viewed directly from the submission history report, allowing offices to quickly answer patient questions.

PROVIDE A PAYMENT PORTAL

A PCI-compliant payment portal, hosted by Worldpay FIS, gives patients peace of mind, knowing that measures are being taken to protect their cardholder data.

OFFER WHOLE OR PARTIAL PAYMENT OPTIONS

Patients can make whole or partial payments, giving them flexibility while helping ensure payments are being made.

TRACK THE IMPACT OF ONLINE PAYMENTS

You can easily see online payments so you can monitor their impact on your bottom line.
